ABSTRACT: A new breed of **service provider** is making its way into the competitive **service provider** market by exclusively serving the MTU market. These **service providers**, sometimes called building local exchange carriers (BLEC), make deals with property owners, wire a building

...  
TEXT: **Service providers** jump at chance to win over MTU audience

**Tenants** in skyscrapers, **office buildings** and complexes have been largely ignored when it comes to incumbents providing them with high...

...their ever-growing needs for bandwidth and other e-business services.

A new breed of **service provider** is making its way into the competitive **service provider** market by exclusively serving the MTU market. These **service providers**, sometimes called building local exchange carriers (BLECs), make deals with property owners, wire a building...

...Tower to the Empire State Building to a strip mall in the suburban Midwest, these **service providers** have found a captive audience in small and medium-sized business occupants.

In addition to...

...operating officer of Allied Riser Communications. "They were very disgruntled with the ability of local **service providers** and their lack of desire to come into a building and offer the tenants a...

...a dedicated pair of fiber to each customer in a building and provides IP-based **services**. The provider then **aggregates** all traffic in the building and sends it to an interconnection point. "We believe that...

...provide content-rich services to tenants and building owners, Basile said.

Business plans aside, MTU **service providers** have different ways of sharing revenues with building owners. Agreements range from splitting revenue 50...

...flat fee or handing over 5% of revenues.

Though most deals between property owners and **service providers** are not officially exclusive, exclusivity is implied. "If we do the wiring and charge \$25...

...to go in and build. They couldn't get any customers," he said.

Once a **service provider** has wired a building, it's a barrier for entry by others, said Carl Garland...

...for network services for Current Analysis. It's unlikely a building owner will allow another **service provider** to come onto the premises, he said. "Construction is a nuisance, and it's costly. Building owners aren't **service providers** so the FCC cannot mandate access."

When it comes to partnering with building owners, some **service providers** prefer to deal with building owners that know their building and tenants well. Skyway, for...

...lasts long." Eventually Garland said, BLECs will be subject to the same regulations as other **service providers**.

**RC Networks And Atreus Systems Partner to Deliver Value-Added Broadband Solutions for Service Providers in Mtu, Mdu And Hospitality Markets**

TEXT:

...Atreus  
Systems Corporation, a leader in Broadband Service Creation, today announced a partnership that enables **service providers** to deliver advanced broadband applications and affordable, always-on Internet **services**.

The interoperability agreement **combines** RC Networks' RC8000Plus (TM) product family with Atreus Systems' xLINK(TM) Broadband Service Creation product suite, giving **service providers** the capability to create, deliver and manage Internet-based services such as e-commerce and streaming video for multi- **tenant** unit (MTU) **office buildings**, hotels, and multi-dwelling unit (MDU) complexes. With the combined in-building solution, **service providers** have a platform from which to launch, manage and customize the entire service delivery cycle...

"Rapid deployment and fast, efficient customer service for broadband services are critical to a **service provider**'s success," said Andrea Baptiste, vice president of sales and marketing at Atreus Systems. "Our integrated platform and service portals enable **service providers** to leverage their in-building infrastructures and provide advanced business services quickly and cost-effectively. Together with RC Networks we offer **service providers** a total solution for broadband service delivery."

Atreus Systems is dedicated to simplifying broadband service creation for telecom **service providers**. Atreus xLINK(TM) Broadband Service Creation platform gives **service providers** the ability to rapidly define, activate, bill, and manage their services with service portals tailored...

...for the hospitality market, working together with the Atreus xLINK Broadband Service Creation Platform, enable **service providers** to deliver a host of tailored applications and services to a large subscriber community in a controlled and repeatable manner. With the Atreus xLINK Broadband Service Creation product suite, **service providers** and their partners have a centralized mechanism to create new applications and services and deploy...

...an opportunity for Atreus Systems and RC Networks to provide best-of-breed solutions for **service providers** wanting to accelerate DSL deployment so their customers can receive services without any delay," said...

...RC8000Plus product family is a comprehensive line of next generation SDSL access concentrators that enables **service providers** to deliver value-added services such as Internet access, VoDSL, VoIP, video and VPN in ...

...ATM, and simultaneous support for Layer2 switching and Layer3/4 IP QOS routing, which gives **service providers** the capability to offer a broad range of advanced business services. Because it was designed...

TEXT:

...Ellacoya Networks(TM), Inc. an innovative technology company building next generation data communications

platforms for **service providers** and carriers, has defined the architecture for the industry's first Service Generation System(TM). The Service Generation System platform is a service overlay to existing broadband infrastructure, enabling **service providers** and carriers to leverage their broadband networks to deliver fully customized, self-service, high bandwidth...

...to the granularity of the individual user (by service and time of day), letting the **service provider** direct appropriate offerings to its different market segments. By doing this, the provider greatly increases...

...them to consistently roll out new service offerings ahead of the adoption curve. Because the **service provider** can offer the subscriber countless best-in-class services, personalized to their wants and needs, the customer/ **service provider** relationship is strengthened so that retention and brand loyalty are significantly improved.

The Service Generation...

...on a highly individualized, self-serve basis.

"As an early adopter of the Service Agency **business** model for multi-tenant unit (MTU) **commercial buildings**, Everest Broadband is building out a flexible network infrastructure that allows for partnering to bring...

...for individualized next generation network, content and application service delivery, capable of changing the way **service providers** do business," said Joseph Varello, VP of Corporate Development for Everest Broadband ([www.everestbroadband.com](http://www.everestbroadband.com)...

...Service Generation System is a scalable standards-based directory system that stores profiles for subscribers, **services**, service **bundles**, applications, network delivery attributes, portal elements, billing characteristics and more. The profiles are retrieved on...

...is developing the Service Generation System, which we believe unlocks the applications value chain for **service providers**," said Michael Howard, principal analyst of Infonetics Research. "In the new service economy, services will be consumed and billed differently based on an array of factors, and the **service provider** must accommodate these factors for successful service adoption. The scalable directory with its flexible personalization...

...compliant, carrier-class platforms with appropriate high-speed broadband and optical interfaces to address different **service provider** and carrier markets. Service Creation Manager (SCM) - The graphical provisioning tool provides the

capability to...

...web-based format. Consequently, by enabling a highly personalized user experience, the relationship between the **service provider** and the subscriber is strengthened and the application/service is enhanced," said Kurt Dobbins, president...of communications expertise to enable next generation services for high capacity public data networks, helping **service providers** add value to bandwidth by providing a higher layer, intelligent service environment capable of delivering...

ASC Products and Exclusive MultiStream(TM) Technology Now Available  
to International Carriers and Internet **Service Providers**

Advanced Switching Communications, Inc. (ASC), a provider of next-generation broadband services access platforms announced...

...the next five years while voice traffic will grow only 15 percent. New and incumbent **service providers** across Europe must migrate to and build data-oriented network architectures that will support this trend. ASC's products are the next-generation of carrier equipment designed to help **service providers** seamlessly deliver integrated voice, data and video services over data-oriented network architectures.

"ASC provides...

...said Asghar Mostafa, ASC's president and CEO.  
"With ASC products in place, carriers and **service providers** worldwide can meet current and future customer demand for broadband services over

existing  
infrastructure while...

...at the central  
office, co-location site, point of presence (PoP) or in a multi- **tenant  
office**

**building** . ASC brings the capabilities of typically more expensive, "big  
iron"  
switching equipment to this new...

...flexibility. The ASC solution then scales from very low to very high  
port  
densities allowing **service providers** to cost-effectively enter new  
markets  
and deliver services to smaller cities or larger metro...

...bandwidth  
increments from fractional E1 to E1 to Nx E1 levels. This multi-service  
flexibility allows **service providers** to deliver the bandwidth their  
customers  
need today and easily scale to meet future growth...

...Nx E1 (4-16 Mbps)  
without service interruption. ASC's products with MultiStream are the only  
**aggregation** and broadband **services** platforms to employ standards-based  
Nx E1  
technology that supports both MFR and IMA connections on...

...can result in under-utilized bandwidth and is difficult or often  
impossible to obtain, a **service provider** can use MultiStream technology  
to  
bundle multiple E1s into a single higher speed connection. For...

...s large and continuously growing market for broadband data  
services, ASC's value proposition for **service providers** in Europe is  
exceptional," commented Andrew Cray, a senior analyst with the Aberdeen  
Group. "Being...

...ASC's  
product family, winner of Data Communications magazine's "1999 Hot Products  
Award," helps **service providers** deploy a wide range of broadband  
services  
profitably while dramatically lowering costs. ASC's revolutionary...

...equipment is  
successfully deployed by a range of competitive local exchange carriers  
(CLECs) and Internet **Service Providers** (ISPs). ASC is privately held  
and  
headquartered in Vienna, Virginia. ASC's management team is...

...ABSTRACT: and midsize businesses located in commercial office buildings has encouraged emergence of the first-mile **service provider**.  
TEXT: By providing "tailored" solutions, first-mile **service providers** take the pain out of being small.

Rising demand for high-speed, broadband data services and applications by small and midsize **businesses** (SMBs) located in **commercial office buildings** has encouraged emergence of the "first-mile" **service provider**. By delivering reliable, innovative business--centric solutions and eliminating bandwidth bottlenecks, these new providers help...

...concepts and roles of ISPs within the communications industry. Gone are the days when major **service providers** concentrated on building nationwide networks with little regard to serving **business** users inside **commercial office buildings**. Today's first-mile providers make it a priority to understand the unique needs of...

...providers that were often unconcerned about a customer's need for business applications.

First-mile **service providers** light a building by connecting a LAN to CPE, with an optional managed firewall (see...

...affordable, broadband solutions that increase productivity and profitability. Fast connectivity eliminates bandwidth bottlenecks, while tailored, **bundled data services**, a reliable network, and professional consulting services run back office operations, create sales channels, develop...

...dial-up networks cannot accommodate compared to higher-speed, higher-capacity broadband networks.

First-mile **service provider** networks alleviate bottlenecks by delivering 192-- kbps to 100-Mbps connections to the Internet and...

...16 U.S. cities. Deploying a high-speed, broadband data network from a first-mile **service provider** enabled the company to solve daily business challenges and experience up to 20-percent network savings by eliminating multiple **service providers**. The bundled broadband solutions delivered to Experio provided a secure VPN that delivered highspeed Internet... solutions, these providers enable SMBs to reduce their overall monthly networking costs by eliminating multiple **service providers**. In addition, traditional dial-up or DSL connections may require leased hardware that is not...

...connections comes with the bundled solution at no added cost.

SMBs require tailored solutions from **service providers** that understand their specific business needs. First-mile providers have taken on this role by...

... Corporate concierge services

Revenue: \$1M-\$5M

Employees: 92

Years in business: 9

Concierges serve as **brokers** and coordinators of a wide variety of personal and business services including catering, gifts, event...

...an item we forgot to pack. Capitol Concierge extends this concept by providing personal and **business** concierge services from desks in **office buildings**. Although the typical hotel concierge retains lots of useful information in his or her head...system, they built alliances with software people, systems consultants and call center developers. The final **product** was a **combined order** processing, accounting, billing, sales monitoring and database contact management system. The company linked all this...
